

## **CAREER EXPLORATION PROGRAM**

The Career Exploration Program (C.E.P.) is a program designed for students who like to learn in a hands-on-style, and are those most likely to go on to trade related futures.

C.E.P. will prepare students who may choose to seek employment when they graduate, and will meet the needs of those who decide to go on to postsecondary training. This program is offered to students entering Grade 10 for the first time, or for those who may have been unsuccessful in Grade 10 in the past. Students who complete the O.P. Program will receive their Nova Scotia High School Diploma in addition to work place skills and training. For further information contact the Guidance Counselor or the CEP Coordinator.
